NDEP Certification Program Newsletter

This electronic **July 2007 newsletter** provides recent regulatory news of general interest to environmental professionals practicing as Certified Environmental Managers (CEMs), Underground Storage Tank Handlers (UTHs), and Underground Storage Tank Testers (UTTs) in Nevada.

◆ New UIC General Permits for Remediation Sites

The Underground Injection Control Program has completed the development of new UIC general permits for remediation sites. [A new webpage](#) has been created to explain the new permits. These new permits will help streamline permitting, improve coordination on what is submitted to the Bureau of Corrective Actions as part of UIC applications and reporting, and reduce the volume of paper reports.

◆ NDEP Regulatory Clarifications for CEM & UTT Standards of Practice & Renewal Procedures

Clarifications are being distributed on how the Certification Program interprets regulations pertaining to:

- Responsibility for oversight of tank testing completed under UTT certification — [CERT-07-01](#) 
- Procedures for certification renewals and reinstatement requests — [CERT 07-02](#) 
- Responsibility for oversight of work completed under CEM certification — [CERT-07-03](#)
